FIGHTING FOR SILVER

The Senate Has a Lively Debate on the New Bill.

DISPOSITION TO FIGHT IT OUT.

An Exceedingly Interesting Debate on th Conference Measure, Which Republicans Seem Inclined to Accept.

By the Associated Press.]

Washington, July 9 .- Presiding Officer Ingalls announced his signature to the bill admitting Wyoming. The bill now goes to the President for signature. The sundry civil appropriation bill

was reported. Allison stated that he would ask its consideration tomorrow. Consideration of the conference report on the silver bill was resumed.

Cockrell continued his argument against the report. He criticised the last clause of the second section of the conference bill, and said the language there indicated a preference for a single gold standard. The section reads so that it would be interpreted until the parity between the metals is estab-lisheed that gold would be given a preferenc, and legal tender notes be redeem

Teller controverted this assertion. Mr. Jones of Arkansas, read an ex-tract from an article in yesterday's New York Evening Post, a paper opposed, he said, to silver legislation in all its forms, to the effect that the report contained some features not embraced in either House bill or Senate bill and

tending to make it a better measure than either. It also stated that the purpose of silver men was "foiled."

Mr. Cockrell: "Precisely what I have said. That article is from a very able representative of the gold interest and it is a warning to the Senator from Nevada (Jones) that he has abandoned Nevada (Jones) that he has abandoned the cause of the equalization of silver with gold. Under this conference report the secretary of the treasury can drive the country to part with every dollar of gold and can lock up in the vaults of the treasury every silver dollar. That is the most dangerous power ever given a Secretary of the Treasury since the foundation of the government.

Platt: "Does the Senator mean to say he would not give the Secretary of the Treasury discretion as to which coin

he would pay in?"

Mr. Cockrefl: I certainly would give him that discretion. I would say, "Redeemable in cein."

Mr. Platt: That is all that there is to

say.

Mr. Cockrell: That is true, but there is within it a declaration which is the fatal thing and that is that the gold standard still exists and must be maintained.

The vote resumed, resulting: Yeas, 111; nays, 33, and the Speaker was unable to count a quorum, so the conference report is not agreed to for the present. Adjourned.

most carnest and solemn protest against it," as meaning a practical cessation of silver coinage after Industry sation of silver coinage after July 1st. Mr. Jones, Nevada: That is all we

Mr. Cockrell: In other words, the Senator from Nevada is willing to abandon the double standard to make silver a mere commodity, to stop its coinage, and to tell the people of the country that he has done something for the restorstion of the double standard. The conference bill is a total abandonment of

all pretensions to the double standard. Mr. Mitchell, in the course of some questions involving Mr. Cockrell's con-sistency, remarked that while he was in favor of the free and unlimited coinage of silver he would support the conference bill, because it was all that the friends of silver could get.

Mr. Ccckrell: I believe that if the

Senate will reject this report the House will in the end agree to the Senate bill. Senate will reject this report the House will in the end agree to the Senate bill. We have made no determined effort to support the Senate bill. We show no This shut off the Chinaman's case enbackbone. We show no dispositio to stand by what we have solemnly done and we give truth to the assertion of the monometallists of the East that the bill was only a project to furnish a market

for silver bullion.

Mr. Daniel addressed the Senate in opposition to the silver bill. The question, he said, was a great deal bigger than the President of these States. whether the President's name be Harrison or Cleveland. Mr. Dapiel argued that under the conference bill \$70,000,000 worth ot silver bullion would be piled up in the treasury every year that the silver stream would be flowing and not a dol-lar of it could be coined to pay the bonds or other obligations of the United States which were payable in coin. Such an enormous discrimination against silver as that had never existed in the legislation of this country, except when silver was completely demonetized. He ad-mitted that it would be betbecome a law than that no statute of limitations and that they bill on the subject should become a therefore can take the property without law, but it was a mere make-shift. Sooner or later, Mr. Daniel said, Conwith all the improvements placed therebelieved in the free coinage of silver, submitted, will end the land suits, the (as he did) they should stand by the others being dependent upon the judgments bill and let the President of the United States take care of himself.

An informal understanding was had

that a vote should be taken tomorrow and the Senate adjourned.

Washington, July 7.—Mr. Hitt, of Illinois, from the Committee on Foreign Affairs, reported back a resolution requesting President Harrison to furnish the House with the correspondence be-tween the government of the United States and Great Britain, touching the various subjects in dispute in Behring sea since March 14, 1890.

Water Suit Set for Today. In the District Court vesterday morning Judge Kibbey made an order in the habeas corpus case of Hom Ah Fong, sustaining the order of Court Commissioner Hughes, remanding the prisoner to the United States Marshal for shipment to China. The point upon which the order was made was that inasmuch as the Chinese are aliens, unlawfully in this country, they have no right to the privilege of a writ of habeas corpus. This view of the case was sustained by the Court and the writ vacated.

About 4000 Indians are at the agency and created a disturbance yesterday when they found that no rations could be issued until Tuesday. The delay is caused by the fact that the cattle are not driven in from the range, thus leaving the Indians starving from Monday until today. The Indians also ob ject to being counted in the census, and the census will be taken with great dif-ficulty. The condition of the Indians is deplorable.
